

Parkland Teachers' Local 10

This past August proved to be a fruitful one here in our local. We sent a delegation to Summer Conference in Banff. It was a great time connecting and taking various courses to improve the functioning of our local. (Below you will see photos from our planning Retreat Day and Summer Conference. The last photo is from the 7 largest locals across the province, all with female presidents!!!) Thanks to everyone who participated and gained knowledge to bring back to our local.

As we enter a new year and continue down the path of Central Bargaining please watch for more information as it becomes available to our members. The first dates coming up are September 9th and 10th.

Sunday August 25th a group of 25 of us met at the Stony Plain Museum for a Planning Retreat Day, to talk and share about our concerns but more importantly the amazing work we hope to achieve this year in our local. Stay tuned for more information at each local council meeting.

Just yesterday we met as a PD Committee to plan and strategize things we want to accomplish in our local this year, specifically on our self-directed PD. If you have an idea or an expert teacher who would make a great host for a PD session please send them our way.

Beginning Teacher Conference: September 20th and 21st.

October 2nd Local Council- in-person - please bring a new teacher with you (have them register once the information to sign-up becomes available)

We're thrilled to kick off another fantastic school year with you all! Your dedication and passion for education are truly inspiring. Here's to a year full of growth, collaboration, and success. Let's make it one to remember!

Welcome back, and let's make magic happen!

Respectfully Submitted,

Sarah Cresswell, Local President
